Languages: JavaScript ES6+, C#, CSS3, HTML5, SQL, NoSQLdf
Applications: GitHub, MongoDB, MySQL
Tools: Express, React, Node,Bootstrap,Heroku

PROJECTS

Gotta-Catch-A-Vibe| https://bit.ly/3qNxMg8 | https://bit.ly/3nrdJC5
- This application uses the weather of whichever city you're in to find out which pokemon would give you an environmental advantage at different times of the day. As a group we used multiple APIs and combined that to provide the application user that information.
- *Role:* Worked with the API and created an algorithm with Javascript to display data from API's to the user.
- *Tools:* openweathermap.org/api, pogoapi.net/documentation, pokeapi.co / HTML, CSS, Javascript

workOut-Tracker | https://bit.ly/3nq1dCQ | https://bit.ly/3ciLTBA
- In this app you'll be able to view, create and track daily workouts. You'll also be able to log multiple exercises in a workout on a given day and track the name, type, sets, reps, and duration of the exercise.
- *Role:* Developed the back end and the Mongo database with a Mongoose schema and handled routes with Express.
- *Tools:* Express, Heroku, Node, Javascript

Note-Taker-App | https://bit.ly/3DqQbm9 | https://bit.ly/3wZzcVU
- An application that can be used to write and save notes. This application is using Express.js and saves and retrieves note data from a JSON file.
- *Role:* Over saw back end design, and connecting it to the front end
- *Tools:* Express, Heroku, Node, Javascript

Budget-Tracker | https://bit.ly/3qUnLxo | https://bit.ly/3nq3Cxm
- In this app the user will be able to add expenses and deposits to their budget with or without a connection. When the user enters expenses offline the data will populate and update the database once online.
- *Role:* Performed back end development - to save the data even when the user's offline.
- *Tools:* Express, Heroku, Node, Javascript

PROFESSIONAL EXPERIENCE

Junior Executive   2013 – 2021
Nation Link Transport; New Brighton, MN
Report to the Executive officer with the daily operating agenda which outlines a variety of reports. Reports are made with the collective data from various web outlets and driver reports which are archived in instances of department of transportation audits. Facilitate the repairs of freightliners, and locate the best place to do so in that state.
- Enhanced efficiency by establishing a system to keep track of the driver, locations (this includes current and future locations), status of hours, when they would be unloaded and ready to go.
- Created a way to organize information and track tasks.

Inbound Sales Specialist   2015 – 2017
Stauer; Burnsville, MN
Provided excellent service to priority accounts in completing purchases. Understood product history and provided service based on customers needs. Simultaneously navigated between multiple softwares and cataloged calls.
- Facilitated sales and managed customer accounts by maneuvering through specialized ecommerce programs.

EDUCATION

Full Stack Web Development Certificate – University of Minnesota; Minneapolis, MN | **2021**
Associates Degree – Normandale Community College; Bloomington, MN
